DANCE STYLE DESCRIPTION	
Ballet	Generally accepted all over the world as one of the most artistic forms of dance entertainment cherished by people of all ages. Ballet is theatrical entertainment in which dancers, usually accompanied by music, tell a story or express a mood through their movements. The technique of ballet is elaborate and requires many years of training.
Tap	Is rhythmic and fun! Tap Dance strengthens students' abilities to count and dance in time with music and increases the speed of their foot work. Tap is also a great way to improve coordination in young dancers.
Hip Hop	Fun, quick-paced, and energetic, Hip Hop dance finds its roots in street dancing. Students learn to coordinate movements with music and are encouraged to express themselves as individuals. The boy's only classes allow the boys to do a more physical type of choreography which includes tricks used in breakdancing.
Jazz	A fun upbeat kind of dance that teaches the students overall coordination and rhythm with funky upbeat music. Jazz dancing is the most commonly used style of dance on television shows, movies, music video and commercials. It is fun and energetic.
Lyrical	A combination of Jazz and Ballet performed to the words of songs that tell a story. The dance becomes the story of the song and the dancers are telling the story through their movements. This is a great form of dance for the dancer that loves to be expressive when they dance.
Poms	Dancers learn upbeat choreography while dancing with poms as seen at many sporting events
NEW Folkloric Ballet Jr.	<p>New instructor Lorena Garcia will lead dancers through routines that emphasize movement, ballet characteristics and the Mexican culture. This highly popular and choreographed dance is the perfect way to learn about part of our community's culture.</p> <p>Drop off childcare is available as early as 6:30am, drop off and bussing to schools within District 33 is provided.
